March 14th, 2017.

I am very pleased to welcome you on behalf of the Integrity Commission of Trinidad and Tobago.

A warm welcome is extended to all the Commissioners, the Registrar, Students, Teachers and Staff of the Integrity Commission.

Welcome to the Award Ceremony for the 2016-17 Secondary Schools Do Right Poster Design Project and a special thank you to all the Secondary Schools, especially the students who participated in this Poster Design Project.

This is the fifth year in which we have hosted the Do Right Champions in the school community. This year we have received amazing and innovative designs from our participants. The wonderful array of designs truly encompassed the meaning of Integrity and Ethics.

I am personally happy to see the hands-on approach with which all of the students and Art teachers executed this project. The Commission received eighteen (18) Poster Designs by December 1st 2016 from the thirty-five schools that registered. I am happy to announce that six schools have been marked as finalists by external adjudicators.

At the Integrity Commission we believe that everyone should be recognized for doing the right thing. Indeed the Commission is mandated to educate persons on the standards of Integrity, but more importantly, we believe it is our responsibility

to help our younger society to evoke, develop and foster an understanding of a proper standard of Integrity.

As in preceding years, this year's project is founded on the actual subject matter taught in schools and acceptable values in society – placing an integral focus on the Visual and Performing Arts to help align students with the true meaning of Integrity in our communities.

We wish to thank and are most appreciative for the on-going collaboration with the Ministry of Education, and the Division of Education, Youth Affairs and Sports of the Tobago House of Assembly. They have been most supportive and we publicly thank them for their valuable assistance.

As I close, I trust this competition will help to inculcate us all: to be decent, to be fair, to do the right thing always which in turn would in turn help us recognise the need for and to achieve a better future.
